

Founders of Midas Environment Builder, Mr. Edwin Leong and Ms. Janice Wong

Singapore Prestige Class Award & Aspiring Woman Entrepreneurs Award 2021/2022

Professional Builders and Engineers with a Special Touch

Midas Environment Builder Pte Ltd was established in 2005 by Mr. Edwin Leong and Ms. Janice Wong. Incorporated as an interior design business, the company specialises in refurbishment works, fit-out, addition and alteration work for the commercial, retail, residential, entertainment and the public sector. They also provide after sales services like project maintenance and follow-ups to any clients requiring assistance with upgrades or re-work.

Mr. Edwin and Ms. Janice have worked together in the same interior design industry before they venturing out for themselves. It started with passion, a passion for creating aesthetics in a functional way; to create environments that their clients could envision.

With more than 20 years in the industry, the founders have built the company to its current prestige, amongst their major projects include Marina Bay Sands, Changi Airport, A*STAR, LTA, SMRT, TTSH, NUH etc. For their dedication to their craft and clients and their excellent business practices, they will be receiving the Singapore Prestige Class Award 2021/2022. For her persistence and her entrepreneurial spirit, Ms. Janice will be receiving the Aspiring Woman Entrepreneurs Award 2021/2022.

Providing Best in Class Levels of Service That Combine Both Innovation and Creativity

The key objectives of Midas Environment Builder are to provide a one stop and first-class service to their clients. They seek to expand their clientele networks and ways to reinforce client relationship even after the project has ended. The strategic business plan includes the expansion of business with an improved presence globally. Their management team endeavours to deliver all projects on time to the required quality and within Client's budgets, to ensure a holistic customer satisfaction. They take pride in meeting the mounting expectations of their clients both by providing a conducive workspace for their staff and ensuring an efficient, functional and well-designed layout to reflect the corporate identity of their clients. They believe in building their reputation achievements on customer satisfaction.

Midas Environment Builder has high calibre site supervision with a proven quality control system. They also implement modern programming techniques to present clear graphical displays in a logical sequence to aid with project planning and procurement.

Paving The Future That They Create for Themselves

Midas Environment Builder has grown to the scale that it now is at the hands of their founders. Mr. Edwin and Ms. Janice have worked hard to build the company to the way they envisioned it. Their passion and enthusiasm is passed down to their staff instilling ambition to ensure that the quality and service to their clients go above and beyond. Over the years, they have worked hard to build their presence in the market. Ms. Janice has spearheaded the social media marketing channels, expanding their online presence greatly.

Being an interior designer and a contractor herself, she regularly goes out on site to manage the works. She gained workers and subcontractors respect by toughing it out with them, proving that she had the knowledge and the experience necessary to get where she was. "Ultimately, experience and respect counts."

Passion is the Flame that Keeps Things Going

The founders envision Midas Environment Builder is to be an energetic professional and progressive team. They have ascended up various levels, overcoming difficulties encountered, main ones being cashflow, manpower and getting new clients. "Passion, perseverance, motivation, all of these bundled together with faith, hope and belief, this was how we overcame all these problems." Passion is what drives the company and the flame that burns remains bright even through difficult times.

They also founded Midas Engineering and Services Pte Ltd providing a one-stop mechanical and engineering (M&E) solutions to their clients in all sectors. They provide services including and not limited to preventive and corrective maintenance works, new installation works, and repair works. There are more plans in store for the expansion of Midas, and despite the halt in their overseas plans, they seek to continue it in the future. "We are somewhere in the middle right now, and we need to take a big leap of faith to expand the business internationally and locally."

"SIR WINSTON CHURCHILL ONCE SAID.

**Success is not final, failure is not fatal, It's the
Courage to continue that counts."**
